

名前 _____ 日付 _____ / _____

QUESTION

Please read the article below and summarize it in English between 45 and 55 words.

以下の記事を読み、45～55語の英語で要約してください。

READING

Universities share knowledge in many ways besides teaching their own students. Some institutions organize events and programs for people who live nearby. One approach is to allow local residents to attend university classes in person.

What are some benefits of opening classes to the public? People can study specialized subjects regardless of their age. This gives adults chances to continue learning after leaving school. In addition, these classes can strengthen connections between universities and their communities. Residents may become more interested in university activities and support local projects.

However, this system also has some disadvantages. Classrooms may become crowded when many local people join regular students. This can make it harder for everyone to find seats or ask questions. Another concern is that teachers may need to adjust how they conduct lessons. They may have to explain basic information carefully because participants can have different levels of knowledge and experience.

要約は2ページ目を書きます。記事の和訳は載せていません（読む練習のため）。答え合わせはQRから。
