Companies operate internationally and sometimes need employees in other countries. Overseas offices can support local customers and business partners. Therefore, some companies send workers to foreign branches for several years.

What are some benefits of working abroad? Employees can improve their language skills through daily communication. They may become more confident when speaking with coworkers and customers. In addition, overseas work can develop a global view. Workers can learn how business practices, markets, and customer needs differ between countries.

Despite these advantages, overseas assignments also have some disadvantages. Differences in culture and customs may create stress. Employees may struggle with communication, food, social rules, or workplace expectations. Another concern is the heavy burden on family members. Partners may need to leave jobs, while children may change schools and lose regular contact with relatives, close friends, familiar communities, and important support networks and familiar daily routines in their own original home country.
